Education

University of Sunderland   **Sunderland UK**

Bachelor in Computer System Engineering   2019-2023

Himalayan Secondary Boarding school   **Koteswor, Kathmandu**
High School +2   2018-2019

Himali Boarding School   Pingalsthan Kathmandu
SEE   2017

Profile

I am a Computer Systems Engineering graduate with extensive experience as an Application Developer. My expertise lies in Python Django and Software Engineering, enabling me to deliver robust and scalable applications. As an energetic and ambitious professional, I am committed to leveraging my skills to drive innovation and efficiency in software development projects.

Project Experience

- **Hotel Booking System**
  - Link to the project: [Hotel Booking System](#)
  - I learnt full-stack web development skills, including front-end design with HTML and CSS, and back-end processing with PHP.
  - I learnt database management and integration, designing efficient databases with SQL and securely handling data operations.
- **Employee Management System using Spring Boot**
  - I learnt full-stack web development skills, including back-end development with Spring Boot and front-end integration with frameworks like Thyme leaf.
  - Link to the project: [Employee Management System](#)
- **Social Networking System using Spring Boot**
  - I learnt full-stack web development skills, including back-end development with Spring Boot and front-end integration with frameworks like Angular or React.
  - Link to the project: [Social Networking System](#)

- **Project Management System for E-Commerce Website**
  - I learnt full-stack web development skills, including front-end design with HTML and CSS, and back-end processing with PHP for handling user authentication and shopping cart functionalities.

Training Experience

- **Broadway Infosys**

  12th March, 2023 - 16th June, 2023

  - Training in front-end development with React, Figma , HTML, CSS, JavaScript, jQuery, Bootstrap 5 and so on. Conducted various research on web development, about how the web works, both its front-end and back-end, about request and response and the client-server architecture.

Work Experience

- **light homes general contracting**   Qatar 2023-2024
  - I oversee and enhance network systems by analyzing, testing, troubleshooting, and assessing LANs, WANs, cloud networks, and servers. Additionally, I conduct routine maintenance to keep the networks operating efficiently and with minimal interruptions.

Certifications

- Python with Django   Workshop, 2023
- UI/UX Designer (Oxpan Microsys pvt ltd)   Aug-July 2023

Skills and Interests

- **Technical Skills:** C, C++, Java, Python, PHP,, Laravel, MySQL, Oracle, Web development
- **Soft Skills:** Teamwork, Communication, Accountability
- **Tools:** VS Code, Windows, Linux
- **Interests:** Computer programming
